From floor to ceiling – all with one tool.

You've found your dream home. Now all it needs is the right lick of paint. That is a tricky, time-consuming job because every surface is a challenge in itself. Thanks to the ALLPaint Technology from Bosch, you can now spray interior wall paints, lacquers or glazes with a single tool. The paint spray systems can be individually adjusted to each material and therefore deliver an impressive result without much effort.

There are now also many suggestions and tips online at: **www.bosch-do-it.com**

Easy operation, impressive result.

Save yourself the hassle of time-consuming work with paintbrushes and manual paint rollers. Pour up to 1 litre of paint into the large paint container. That is enough paint to spray even the most remote corners and edges. You can conveniently choose between various types of paint using a selector switch. Exceptionally practical: the lighter PFS 3000-2 paint spray system can be carried using a shoulder strap, whereas the powerful PFS 5000 E system has wheels to ensure that it follows your every step.

Versatile on any surface.

Wooden surfaces give living spaces a very special atmosphere. Now it’s up to you: give the natural texture of the wood a shiny new finish with a transparent glaze or give the wooden surface a fresh new complexion with an opaque lacquer. From wooden ceilings to coarse wooden beams, sanded stairs, or pieces of furniture that are in need of renovation – with the ALLPaint paint spray systems you will achieve consistent painting results on all surfaces.

A consistent result right into every nook and cranny.

Protect and coat your wooden surfaces both indoors and out.

Change paint
and carry on.

The wooden ceiling is done! Now for the walls: you can change between different paints in next to no time with little effort. In only a few moves you can adapt the system to new surfaces. To do so, all you have to do is briefly rinse the system, replace the nozzle and change the painting mode on the tool. Then you can start painting again. The consistent, fine spray jet enables you to effortlessly get into any corner and even into every nook and cranny. Thanks to the ConstantFeed paint container, the spray gun is consistently supplied with paint in every position. This enables you to apply a coat of paint in record time.

Spray large surfaces in record time.

Give even the smallest gaps a splendid new look.

PFS 5000 E.

The powerhouse.

Versatile

ALLPaint Technology makes it easy to spray all types of paint

Convenient

Paint container with practic, al SDS system for fast refilling of paint and easy cleaning. ConstantFeed function for consistent paint supply in any position

Powerful

1200 W motor enables undiluted paints to be used

Foot-operated switch

For switching the tool on and off

Practical

Long range thanks to 4-m hose that is easy to wind up and integrated wheels

High-endurance

ConstantFeed function for consistent paint supply even when working overhead or close to the floor

PFS 3000-2.
The all-rounder.

Easy

Easy-to-understand symbols and colour codes make it easier to set the tool

Powerful

650 W motor with 2-stage setting for wood and wall paints

Convenient

Paint container with practical SDS system for fast refilling of paint and easy cleaning. ConstantFeed function for consistent paint supply in any position

Flexible

Especially flexible 2-m hose. Put it down or carry it using the comfortable shoulder strap

Versatile

ALLPaint Technology makes it easy to spray all types of paint

Bosch ALLPaint

PFS 1000 and PFS 2000 – the easy spray systems for smaller surfaces.

Applying paint with brushes and rollers is time-consuming and tedious, and the result is often anything other than satisfactory. It is therefore better to spray paint. The PFS 1000 and PFS 2000 Spray Systems are easy to operate and ensure that paint is applied evenly, e.g. on furniture, toys and other wooden surfaces. The PFS 2000 can also apply wall paints. Thanks to their small, lightweight housing and practical shoulder strap, they are a genuine pleasure to work with and ensure great results.

Consistent paint application even on finely structured surfaces.

Apply thin-viscosity glazes with the same tool.

Convenient

Compact housing with shoulder strap for flexible use in any situation

Flexible

Highly flexible, quality hose

Versatile

ALLPaint Technology makes it easy to spray all types of paint (PFS 2000)

Bosch ALLPaint

Variable

Three-stage adjustable paint nozzle: horizontal, vertical or pencil jet spraying

Easy

Exact setting of the paint flow for optimum results in every application

Brilliant

SprayControl Technology enables exceptionally fine paint atomisation to ensure that paint is applied evenly

High-endurance

800 ml paint container
